

Pyrobatt 120 – Fire Compartmentation Slab

1. Product Trade Name	PyroBatt 120
2. Manufacturer	Thermal Insulation Distributors Ltd Units 1-4 Keypoint, Rosemount Business Park Ballycoolin, Dublin 11
3. Composition	Rockfibre Slab with Phenolic resin binder coated on both sides with a water based copolymer emulsion
4. First Aid Measures	Inhalation: Over exposure to dust from cut product may cause irritation of the respiratory tract. Move fresh air and if irritation persists seek medical attention. Ingestion: Mild discomfort. Do not induce vomiting. Seek medical attention Skin Contact: May cause mild irritation. Wash under running water prior to washing with soap and water Eye Contact: Mild irritation. Flush eyes with cold water
5. Health Hazards	Exposure Limits: 5mg/M ³ , 8 hour time weighted average Personal Protection: Wear suitable gloves, goggles, overalls and dust mask
6. Fire Fighting Measures	No fire hazard. Non-combustible core and coating
7. Accidental Release Measures	No special requirements
8. Handling & Storage	Use gloves when handling. Lightweight overalls with loose collar and wrists. Store in dry conditions.
9. Exposure Controls / Personal Protection	Personal Protection: Wear Gloves and protective clothing during installation. All personal protective equipment, including respiratory equipment used to control exposure to hazardous substances must be issued and selected to meet the requirements of the COSHH regulations. Exposure Controls: Efficient ventilation is adequate in normal exposure conditions
10. Physical & Chemical Properties	Mineral Wool slab with density of approximately 180kg/M ³ . Insoluble in water
11. Stability & Reactivity	Stability: Stable under recommended storage conditions Conditions to avoid: No special conditions Hazardous Decomposition Products: None
12. Toxicological Information	This product does not have any health damaging effects when correctly handled
13. Ecological Information	This product does not cause any adverse ecological effects
14. Disposal Considerations	Product should be disposed of in accordance with current local and national legislation. Refuse material is not classified as hazardous waste
15. Transport Information	Transport Mode: Domestic Road / Rail: Non Hazardous Sea / Air: Non Hazardous International Road / Rail: Non Hazardous
16. Regulatory Information	This product is defined as not being dangerous according to the requirements of the Chemical (Hazard Information & Packaging) Regulations. The information contained in this data sheet does not constitute the user's own assessment of workplace risk, as required by other safety legislation. The provisions of the Health & Safety at Work Act and the Control of Substances Hazardous to Health Regulations apply to use of these products at work.
